

# Why Smoke Test Plumbing?

Residential • Restaurants • Retail • Commercial • Industrial

## #1 - Find Sources of Odor

- Any path where an odor travels, smoke will go too.
- Find sources and causes of odors in *minutes* that might take days to find any other way.

## #2 - Find Plumbing Faults

- Locate Cracked or Broken Pipes, Bad Connections, Improper Venting, Open Pipes/Fittings, Dry Traps, etc.

## #3 - Test New Plumbing

- As a Primary or Secondary Test to Locate the Leak, Smoke Testing is Fast, Inexpensive and Easy.
